PROFILE

Business-facing AI implementation and product professional with 5+ years across digital products, automation and enterprise client delivery. Initiated and scaled a GenAI workflow across four operating DACH locations, reducing production cycle time by 50%. Previously built and led a five-person AI and digital unit, shaping four B2B solutions that generated approximately THB 10M in first-year revenue. Experienced in discovery, business cases, pilots, stakeholder alignment, rollout and user adoption.

CORE EXPERTISE

AI IMPLEMENTATION Use-case discovery · Pilot design · Business cases · ROI · Rollout

ADOPTION & CHANGE Stakeholder alignment · Training · Human review · Process redesign

PRODUCT DELIVERY Roadmaps · Requirements · Acceptance criteria · Agile delivery · GTM

AI & AUTOMATION LLM workflows · n8n · Make · OCR · APIs · Responsible AI

PROFESSIONAL EXPERIENCE

Independent AI Product Development & Professional Upskilling

Mar 2026 – Present

Builder / Product Lead — Munich, Germany

- Built bierpreis.beer, a live Munich price-transparency MVP with 181 venues, using AI-assisted development across React, Leaflet, Node.js and PostgreSQL; currently refining data quality and launch readiness.
- Developed hands-on capability in AI automation, agent workflows, data science and responsible AI while creating portfolio projects with working interfaces and measurable outputs.

JK-Fashion Verwaltungs GmbH

May 2022 – Feb 2026

Product Marketing Manager — Munich, Germany

- Identified a GenAI content-automation opportunity, built the initial n8n proof of concept and designed a controlled pilot across two AI-enabled and two comparison locations, evaluating cycle time, cost, local relevance and approval rate.
- Diagnosed adoption barriers, facilitated a seven-person cross-location workshop and introduced human approval and GDPR data-minimization controls; scaled the workflow to all four operating DACH locations and reduced production cycle time from two weeks to one.
- Proposed the G-fashion mobile CRM product, shaped the feature roadmap with the vendor and led the go-to-market plan, reaching 3,000 users in eight weeks through promotions, app-only campaigns, gamification and internal activation.

Tohklom Co., Ltd.

Oct 2020 – Apr 2022

Innovation Product Lead, Digital Unit — Bangkok, Thailand

- Built and led a five-person AI and digital unit, prioritizing and shaping four B2B solutions that generated 20% of first-year company revenue, approximately THB 10M.
- Took AI Expense Intelligence from 30+ SME finance interviews to an internal pilot; defined the business case, evaluated OCR-based receipt extraction on 500+ receipts and designed confidence-based human review to manage quality and operational risk.
- Piloted QR Event Management internally, then licensed it to five market competitors to gather usage data and improve the product, contributing to 25% client adoption in the first quarter.

AI DISCOVERY EXPERIENCE

Design AI GmbH

Jan 2020 – Apr 2020

AI Business Developer Intern — Munich, Germany

- Researched 100+ target companies and interviewed 20+ C-level stakeholders to identify 15 AI use cases; prioritized them with engineering and leadership against urgency, technical feasibility and financial viability.
- Converted the six strongest opportunities into product proposals and requirements, validating two—NLP workflow automation and live-stream video intelligence—as customer pilots.

CLIENT & ENTREPRENEURIAL EXPERIENCE

Merit Co., Ltd. *Aug 2016 – Aug 2018*

Enterprise Account & Strategy Executive Bangkok, Thailand

- Managed 30+ enterprise accounts including Unilever, Nestlé and Airports of Thailand, achieving approximately 70% year-on-year retention across technology-enabled engagement programs.
- Delivered approximately 50 projects with budgets of EUR 25K–1.25M, coordinating client, creative, production and supplier teams and presenting ROI cases to C-level and procurement stakeholders.

PAD-SED-SAM-SUAN-SEE *May 2017 – May 2018*

Co-founder & CEO — Experiential Technology Startup Bangkok, Thailand

- Co-founded a four-person studio and shipped three interactive products; converted outreach to 50 companies into four clients and ten commercial projects.

ADDITIONAL EARLY EXPERIENCE

QYOBO GmbH — Growth Strategist Intern | Oct–Dec 2019, Munich

- Structured the sales pipeline in Pipedrive and sourced partnership opportunities with 20 pharmaceutical-data vendors in China.

Prospeum GmbH — B2B Marketing & Brand Communication Intern | Jul–Sep 2019, Munich

- Defined target segments and go-to-market messaging for an AI-procurement SaaS product and tested early concepts with prospective users.

SCHUNK GmbH — IIoT & Innovation Researcher Intern | Apr–Jun 2019, Lauffen am Neckar

- Assessed 20 operational-technology use cases for feasibility and business impact to inform an IIoT implementation roadmap.

SELECTED PROJECTS

bierpreis.beer — Live product MVP

- Built a location-based Munich beer-price platform end to end; defined the product concept and mobile experience, coordinated AI-assisted implementation and created the initial venue dataset covering 181 locations.
- Designed map/list discovery, price normalization to 0.5 litres and structured venue-data workflows to make local price comparisons practical and transparent.

EU/Germany Responsible AI Guide — Interactive portfolio project

- Created an interactive assessment and working launch checklist covering AI use classification, GDPR, vendor controls, transparency, human oversight and EU AI Act considerations for everyday business use cases.

EDUCATION & CERTIFICATIONS

M.Sc. Management & Innovation — Technical University of Munich (TUM), Grade 1.7 2018–2020

Exchange Program — Tsinghua University, Beijing 2019

B.Eng. Nanomaterials Engineering — KMITL, First Class Honours, GPA 3.6 2012–2016

Data Science Certificate — TUM | German B2 — telc | English C1 — NESE Boston 2023 / 2024

TECHNICAL TOOLKIT

Automation & AI: n8n · Make · LLM APIs · OCR workflows · Human-in-the-loop controls | Product & Data: Figma · Jira · SQL · Python · JavaScript · Power BI | Commercial: HubSpot · Salesforce · Pipedrive

LEADERSHIP & LANGUAGES

TEDxKMITL — Lead Organiser (Volunteer): Led a 25+ person team over 12 months to deliver an event for 150 attendees, 10 speakers and two performances.

Languages: Thai (native) · English (C1) · German (B2, professional working proficiency) · Mandarin (foundational)
